Miss Margaret McCarrie of Salt Lake and Bert Devault of Indian spent Sunday at the McCarrie home.

Mr. and Mrs. H. P. Hardy left Saturday to visit a month with Mr. and Mrs. Nephri Otterson and other relatives.

Gerald Taylor came from Salt Lake and spent the early part of the week with his parents. He will take a vacation to Southern Utah.

Prescriptions filled by the Adams Pharmacy are accurate, and a reasonable price is charged. 2-1

Mrs. Joseph S. Broadbent, accompanied by her mother, Mrs. Hugh Shaw, left Thursday for a week's visit in Bingham Canyon.

Mr. and Mrs. George Holmstead left Sunday for Logan where Mr. Holmstead is taking a course in Agriculture at the Agricultural College.

Mrs. Ruth Smellie and children of Salt Lake were week-end guests at the home of Mr. and Mrs. James Kirkham.

Paul Redmond and J. W. Gilman of Provo Bunch brought two loads of tomatoes to the Canning factory Tuesday. One of them contained 80 bushels and the other 100 bushels.

Wilmer Johnson of Lehi Junction, had his tonsils removed at the Lehi hospital this week; and Mr. and Mrs. Verner Walker had a minor operation performed on their baby.

E. L. Lund, a former Lehi resident, is now making a campaign for the nomination of City Commissioner of Salt Lake City. While in Lehi, he was a leading socialist.

Dr. and Mrs. H. C. Holbrook spent Thursday in Salt Lake, where the Doctor witnessed several operations of bone grafting at the L. D. S. hospital by Dr. Abbie, the great English specialist.

When in need of any kind of printing, phone 112-W, and a representative of THE BANNER will call on you. 2-1

Made of two pieces which are banded together by a heavy metal band, a glass casket has been invented which will soon be introduced for burial purposes, says October Popular Mechanics. This serves both as a coffin and vault, as it requires no protection against the chemical action of the earth. When closed it is hermetically sealed and is proof against both air and water. The two sections are molded in heavy glass, which gives the casket great strength. Its general form is the same, practically, as that of other burial receptacles. The chief point advanced in its favor is its obvious qualities of durability.

## Mayor Receives Plans For New City Park

Provides for Broad Walks, Grass Plots, Shrubbery and Many Kinds of Trees.

Mayor W. F. Gurney this week received blueprints of the plans for the new Margaret Wines Park, from Nicholas Byhowser, the Salt Lake park expert. If the plans are followed it will make one of the most beautiful parks in the state.

The band stand is located in the center of the north side, and back of it and to each side are trees and clumps of shrubbery. In front is a broad open space leading to each of the two north corners near which provisions are made for two drinking fountains.

The four entrances to the park are located in the two south corners and about fifty feet east and west from the two north corners. Broad walks are provided for diagonally between these entrances, though they follow, gracefully curved, instead of straight lines. There are also four curved walks located a short distance out from each side and which connect with the diagonal walks.

A diamond shaped plot is located just south of the center, on which will be the chief flower beds, also some fancy trees of similar growth. This arrangement leaves a large heart shaped plot north of the center, two smaller heart shaped plots south of the diamond, and four quarter circle tracts on each side of the block, all of which will be seeded to grass and dotted with trees and shrubbery. The shrubbery will be put out rather in clumps, the larger and more dense in growth being intended to hide some barns and corrals on two sides. Shrubbery will hide, to a certain extent, accommodation buildings located south of the northwest corner.

Lining all the walks and on each of the four sides will be hard wood trees, nearly two hundred in number. Besides this there will be various hardwood, long-lived trees scattered over the grass plots that will probably bring the total up to nearly three hundred. On the east and west sides will be rows of Oriental sycamores, and rows of silver maples will be planted in the north and south sides. Mr. Byhowser suggests planting Bolleina poplars between the hardwood trees, until the latter get a mature growth.

Among the list of trees whose names are written on the blueprint are the following: Japanese Catalpa, Horse Chestnut, Burpee Beech, Paper Birch, Acacia Hespida, Oriental Sycamore, Sycamore Maple, Prunus Pissardi, Cork Elm, Black Birch, Cut Leaf Maple, Red Maple, Linden, American Linden, Hackberry, Euillia Zebrina, Hawthorne, Purple Sycamore, Mountain Ash, Judas Tree, Purple Beech, Western Sycamore, Acacia Alapida, White Birch, Allionthus, Pines and Spruces. The walks will be lined with Green Ash, American Lindens and Silver Maples.

A meeting of city officials will be held at an early date, and if the plans drawn up by Mr. Byhowser prove satisfactory, work on carrying them out will probably be commenced soon. The plans were drawn up with the idea of maintaining its up-keep at a minimum cost.

## DR. HOLBROOK CALLED TO GREAT BRITAIN

It has been rumored for several months that Dr. H. C. Holbrook had been called on a mission. In order to learn the facts a reporter called on the Doctor yesterday and learned that on Wednesday, September 29th, he received a letter from President Smith asking him to accept a mission to Great Britain. He would make no statement as to his further plans. The German sub-marines and floating mines do not add to the pleasure of a prospective trip across the Atlantic.

## MANY ATTEND DANCING MEETING

The bishops of the four wards of Lehi and President A. J. Evans, the heads of the several Stake organizations and members of the High Council living in Lehi, went to American Fork Monday to attend the meeting on immoral dancing. J. B. Smuin, representing the local hall, was also present. Another account is found among the American Fork news.

## DUCK SEASON OPENS

About six o'clock yesterday morning there was a sudden and terrific bombardment by the duck hunters below town. It lasted but a short time, the furious assault evidently causing the ducks to take to the trenches or to altitudes out of range. There were desultory shots all forenoon, but the boys say that hunting is not like it was in the old days when with two hours shooting they could come home with the limit.

Some of the land owners on which are streams and ponds frequented by the ducks, have leased their lands to a gun club who are attempting to keep other hunters off. Some of those not in on the gun club privileges are using boats and snapping their fingers at the land owners.

## Fair Exchange

A New Back for an Old One. How It Can be Done in Utah County.

The back aches at times with a dull, indescribable feeling, making you weary and restless; piercing pains shoot across the region of the kidneys, and again the loins are so lame that to stoop is agony. No use to rub or apply a plaster to the back if the kidneys are weak. You cannot reach the cause. Utah County residents would do well to profit by the following example.

John A. Anderson, R. F. D. No. 1, Box 105, Lehi Junction, says: "Some years ago I was injured across my back and occasionally, from this cause, weakness of the kidneys showed itself. I also had lameness and pain in my back. When suffering that way, I used Doan's Kidney Pills and they brought me prompt relief."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Anderson had. Foster-Milburn Co., Props., Buffalo, N. Y. (Adv.)
